

Alliance Technology Partner

Align

Connect with our members and facilitate best practice sharing for the betterment of the industry and each other. We promote the development of leadership skills in our members.

Grow

Build programs and resources to attract talent at all levels. The Alliance is committed to increasing diversity and growing career-path awareness, around the globe.

Give

Create and foster a vehicle for our members to support community organizations to address their information security needs.

About Us

The Security Advisor Alliance is a 501(c)3 nonprofit founded and run by industry leading cybersecurity professionals.

Our mission is to unite the cybersecurity community to drive awareness to and diversity within our industry. Our 500+ members across the globe work to identify and address the biggest challenges facing the cybersecurity industry.

Converge Tour

The Alliance Cybersecurity Converge Tour is a national initiative, focused on drawing awareness to and diversity within the cybersecurity industry. The Tour is a unique opportunity to built rapport, foster relationships, and unite around an initiative bigger than us all.

INSPIRE . MENTOR . RECRUIT

-  Students learn about the cybersecurity industry, the global impact of cyber crime and how to best protect themselves online.
-  With the guidance of the cybersecurity volunteers, students put their knowledge to the test, and compete in a virtual Capture the Flag exercise.
-  A dialogue is opened between students and volunteers, providing them insight into the life of cybersecurity professional and what opportunities may lie ahead for them.

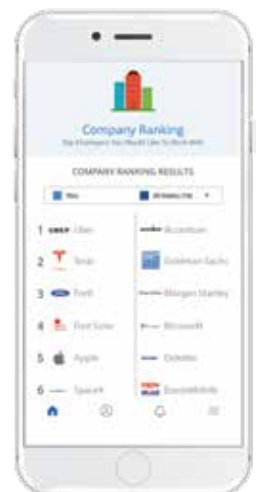

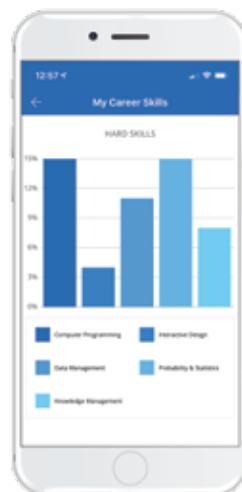

Virtual Mentor Program

THE STUDENT JOURNEY

The Alliance Virtual Mentorship Program provides students with an interactive app based experience that empowers them to test-drive future cybersecurity careers and learn directly from top industry professionals.

- ▲ Students utilize self assessments to identify their hard and soft skills as well as what they look for in a career and place of employment.
- ▲ By reverse engineering our mentors' career path, students with a glimpse into the life and journey of of cybersecurity professionals.
- ▲ Virtual field trips help students build cybersecurity skills through gamified learning.

As an Alliance Virtual Mentor, you are building brand awareness while inspiring and educating future cybersecurity professionals.
